Call For Papers

The main topics of interest include, but are not limited to:

Track 1: Computer Networks and Protocols
- Network protocols
- Network services
- Network estimation and processing techniques
- Algorithmic aspects of communication networks

Track 2: Wireless System Architectures
- Wireless multicasting, routing
- Robust routing
- Wireless broadcast, multicast and streaming
- Congestion and admission control

Track 3: Security, Authentication, and Cryptography
- Cybersecurity in Healthcare
- Wireless network security and privacy
- Blockchain and networks security

Track 4: Challenges in Internet of Things
- Cyber-physical systems
- Cloud and edge computing
- Industrial IoT - emerging technologies

Track 5: Software Systems and Applications
- Intelligent agents
- Communication theory and systems
- Software engineering support for pervasive applications

ICCNT 2025

ICCNT is becoming one of the leading international conferences for presenting novel and fundamental advances in the fields of communication and network technology. It also serves to foster communication among researchers and practitioners working in a wide variety of scientific areas with a common interest in communication and network technology and related techniques. Following the successful ICCNTs in past seven years in Zurich in 2017, Stockholm in 2018, Amsterdam in 2019, virtual mode in 2020 and 2021, Paris in 2022, Madrid in 2023 and Florence in 2024, the conference will be held in Amsterdam, The Kingdom of the Netherlands during September 8-10, 2025. Welcome scholars and researchers working in the field of communication and network technology from all over the world to attend the conference and share your experiences and lessons with other enthusiasts, and develop opportunities for cooperation.
